OBJECTIVE

I'm a seasoned React Native developer with 2 years of hands-on experience. My expertise lies in creating robust, user-friendly, and visually appealing apps that are customized to meet various business needs. With a strong grasp of react Native, I specialize in building mobile apps that work seamlessly on both iOS and Android devices.

WORK EXPERIENCE

GSoft Consulting | React Native Developer

Feb 2022 – Present (2 years)

GSoft Consulting as a React Native Developer

During my two years tenure at Global software Consulting, played a pivotal role in developing innovative software solutions for diverse clients worldwide. Collaborating with cross-functional teams, My responsibilities included coding, debugging, and implementing scalable and efficient software applications. Engaging with clients, I translated their business needs into technical solutions, ensuring the delivery high-quality software products on time and within budget

PROJECTS

uDress:

uDress is a boutique at your fingertips. Our unique platform allows users to post and sell any type of dress. And our easy-to-use search feature allows buyers to quickly find the type of dress, color, and size that they are looking for! Once that perfect dress is found, they simply message the seller and arrange for pickup.

Android: <https://play.google.com/store/apps/details?id=com.app.udress>

Apple: <https://apps.apple.com/us/app/udress/id1485435709>

Etihad Town:

Etihad Town has played a phenomenal role in developing a lifestyle for its residents where they can enjoy a luxurious life with serenity and security. Etihad has taken another step towards innovation by launching the Etihad App where our customers & residents can avail instant access to their property details along with the latest news & happenings.Etihad App brings the exciting features where our customers can not only track their financials but it also enables them to manage.
