

Usama Shahzad

Software Engineer (React Native, React.js)

 usamashahzad535@gmail.com  +923056148610  Lahore, Pakistan

 www.linkedin.com/in/usama-shahzad-737969261

Summary

Software Engineer specializing in building scalable, high-performance mobile and web applications using React Native and React.js. Experienced in delivering production-ready applications with strong focus on performance optimization, API integration, and user experience. Skilled in developing cross-platform mobile apps, implementing secure payment systems (Stripe, PayPal), and building real-time features. Focused on writing clean, maintainable code and delivering reliable applications for real-world usage.

Professional Experience

Senior Software Engineer , <i>Hatzs Dimensions</i>	05/2025 – Present Lahore
- Developed cross-platform mobile applications using React Native, improving performance and user experience - Built responsive web interfaces using React.js with focus on scalability and maintainability - Integrated Stripe and PayPal, enabling secure and seamless transactions - Designed and implemented application features aligned with business requirements - Optimized application performance and resolved critical issues to improve stability - Collaborated with cross-functional teams in Agile environments - Integrated AI-assisted workflows using Cursor and OpenAI APIs to improve development efficiency - Designed event-driven features (notifications, async workflows, real-time updates) for scalable applications	
Software Engineer , <i>Global Software Consulting</i>	2023 – 02/2025 Lahore, Pakistan
- Developed cross-platform mobile applications using React Native (CLI & Expo) - Built modern web applications using React.js, Redux, and Tailwind CSS - Integrated REST APIs and handled dynamic data flow across applications - Implemented push notifications and real-time updates - Improved application performance through debugging and optimization - Streamlined development workflows using AI tools (Cursor, Windsurf)	

Education

BS Hons, Computer Science , <i>University of Lahore</i>	10/2018 – 12/2022 Lahore, Pakistan
--	---------------------------------------

Technical Skills

Programming Languages JavaScript (ES6+), Typescript	Frontend - Web React.js, Next.js, Redux, Context API, Tailwind CSS, HTML5
Mobile Development React Native (CLI, Expo), React Navigation, Reanimated	Payments & Third-Party Integrations Stripe, PayPal, RevenueCat, Push Notifications, Mapbox
Development Workflow Agile Methodologies, Scrum, Sprint Planning, Feature Documentation	Platforms & App Distribution Apple App Store, Google Play Store

Projects

BreezyPay (Digital Wallet & Crypto App), *Tech Stack: React Native, Rest Api ,Push Notification*

- Developed secure wallet system supporting transactions, deposits, and withdrawals
- Integrated Stripe and PayPal for secure payments
- Implemented real-time updates and push notifications

uDress-E-Commerce Mobile App for Fashion,

Tech Stack: React Native, Reanimated, Redux, REST APIs *Role: Senior React Native Developer*

- Developed mobile marketplace with search, filtering, and product listings
- Implemented real-time chat between users
- Enhanced UI/UX with animations and optimized performance

Etihad Town - Real Estate & Community Management App,

Tech Stack: React Native, REST APIs, Push Notifications

- Built mobile application for property and community management
- Developed modules for listings, announcements, and services
- Implemented push notifications and dynamic user features

Befer- The AI-Powered CRM Built for Blue-Collar Business Growth

- Contributed to mobile CRM development for workflow automation
- Built features for customer management and tracking
- Improved operational workflows

Certificates

Meta React Native Specialization (Coursera)

Issued by Coursera

- Earned official certification upon successful completion of the Meta React Native Specialization.
- Completed multiple graded assess and hands-on projects covering React Native fundamentals, navigation, performance, and app deployment.

Programming with JavaScript Issued by Coursera

issued by Coursera | Offered by Meta

- Completed foundational training in JavaScript programming, covering variables, functions, control flows, arrays, and objects.
- Gained a strong base in client-side scripting, enabling dynamic content rendering and interactive web development.

Introduction to Mobile Development

Issued by Coursera | Offered by Meta

- Gained foundational knowledge in mobile application development, including mobile UI/UX principles, platform differences, and development tools.
- Explored core concepts that support cross platform mobile apps, setting the stage for more advanced mobile development. In framework use React Native
